OIL AND GAS**

Subject: Request for Expansion of the Badami Unit

Dear Commissioner Sullivan:

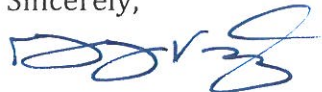

Savant Alaska, LLC, ("Savant") as Operator of the Badami Unit, submits this application for approval for expansion of the Badami Unit in accordance with the Alaska Administrative Code. This request is based on supporting geological, geophysical, engineering, and well data and the interpretation of same.

Under separate cover, a copy of this request along with confidential support material is being sent to the Division of Oil and Gas Director, William Barron.

Savant believes the expansion of the Badami Unit is in the state's best interest for development of the hydrocarbon potential within this proposed Unit area. The increased production to be realized from this expanded Unit, and the resultant oil and gas volumes to be delivered through existing Unit pipelines and facilities will help to meet the state's objective of raising the output through Trans Alaska Pipeline System in a timely manner.

Please contact me with any questions you may have or any additional information you need. I look forward to your response.

Sincerely,

Greg Vigil, President
